

RASUL SHAIKH

AI GTM Engineer | Full Stack from Signal to Pipeline

+91 7387244006 | shaikhrasul02@gmail.com | linkedin.com/in/rasulshaikh

Pune, India - Remote worldwide

Portfolio: rasulshaikh.github.io/gtm-portfolio | GitHub: github.com/rasulshaikh

PROFESSIONAL SUMMARY

AI GTM Engineer who engineers the full revenue motion - signal architecture, multi-channel outbound, demand gen, and pipeline attribution - then ships the production Python, AI agents, and MCPs that make it run without manual coordination. Bridges Marketing, Sales, Product, and CS through data infrastructure, not through meetings.

3+ years at B2B scale-ups (cybersecurity, IT services, AI search); 5+ years across sales, RevOps, and GTM total. At Omnibound AI: cut campaign deploy time 2 weeks to 3 days, unified 6 siloed data sources into a single AI-scored signal layer, and translated PMM positioning shifts into campaign execution the same week.

\$550K+ Revenue | \$3.5M+ Pipeline | 2 Wks to 3 Days Deploy | 1.5%+ Reply Rates | 48h to 4h Qualification

CORE SKILLS

****GTM Engineering**** - End-to-end outbound system design, ICP segmentation by title/industry/pain, signal-based prospecting, targeted list building, A/B testing of sequences/messaging/creative, outbound copywriting, nurture sequence design, event-led outreach, multi-channel orchestration (email + LinkedIn + phone), SDR team enablement and scaling.

****AI and Agentic Workflows**** - Claude Code, Anthropic API, OpenAI API, MCPs, prompt and context engineering, multi-stage LLM pipelines, hyper-personalization at scale, strategic automation for content/email/SEO, custom lead-scoring rubrics and scoring agents, retry and branching patterns in agent flows.

****Engineering Depth**** - Python (requests, BeautifulSoup, Scrapy, Playwright, asyncio), JavaScript, SQL, bash, async fan-out patterns, headless browser automation, REST APIs, webhooks, web scraping, data pipeline design, custom API integrations.

****Funnel Architecture and Demand Gen**** - Salesforce, HubSpot, Marketo, Outreach, Attio, LinkedIn Ads, Meta Ads, Google Ads API, GA4, GSC, Looker, SEMrush, Ahrefs, programmatic content and SEO pipelines, performance ad automation with conversion tracking wired to pipeline data.

****Product Marketing Partnership**** - Positioning, messaging frameworks, early-to-scale narrative shifts, trend analysis, cross-functional work with PMM, Product, Content, SEO, Founder; systems that turn content, insights, and product signals into campaign programs.

****Cross-Functional Enablement**** - Sales, Marketing, Product, Engineering, CS, Support, SEO, Content; real-time CRM sync via webhooks; attribution dashboards for pipeline ROI.

WORK HISTORY

Omnibound AI

October 2025 - Present | Full-time, Remote

AI Search Marketing Platform - signal-led GTM infrastructure for B2B scale-ups.

- Cut campaign deploy time 2 weeks to under 3 days and sustained 1.5%+ positive reply rates across 300+ mailboxes - signal-led outbound engine on Trigify + PhantomBuster, Claude Code, n8n, Supabase, Clay, HubSpot, Slack (150+ sending domains)
- 7-stage LLM pipeline in Clay for SEMrush/Ahrefs stack-displacement targeting: role mapping, SEO intel, gap analysis, AI search gap analysis, strategic positioning, email generation. Per-contact personalized copy at scale
- Replaced 6+ hrs/batch manual research with sub-30-min automated pass - Python (Playwright, asyncio) enrichment agent on Supabase: headless scraping across 100+ domains, Claude Code scoring rubric (composite 0-100 from firmographic + technographic + behavioral), qualified accounts auto-pushed to HubSpot with routing context
- PMM + Founder partnership: worked with Product Marketing, Product, Content, SEO, and Founder on positioning, trend analysis, and scale-stage messaging - translated narrative shifts into campaign execution the same week
- Cut lead qualification to outreach from 48h+ to under 4 hours - unified 6 siloed sources (Product API webhooks, GA4/Mixpanel, SEMrush API, Content, CRM, SEO) into one AI-scored signal layer (composite 0-100), auto-routing to 4 Slack channels by signal type

RemoteState

April 2023 - June 2025 | Noida | IT Services (\$12.2M ARR)

Owned the entire outbound engine from greenfield; cross-functional collaboration with Product, Marketing, Engineering, and CS.

- Delivered 40% pipeline efficiency gain and \$180K+ ARR growth in 6 months - AI GTM engine on Clay + Smartlead + CloudTalk + n8n across 250+ sending domains (95%+ deliverability), 1.5%+ reply rates, 18-39% SQL conversion on trigger workflows (12-20 SQLs/campaign)
- Custom OpenAI lead-scoring rubric cut qualification cycle from 48h to 9.6h (80% reduction); webhook schema designed with Product + Engineering for clean CRM ingestion
- 5-source competitive-intel + market-research enrichment (Apollo + Persana + GPT + Clearbit + internal CRM) - 45% improvement in targeting accuracy. Enriched ICPs for US/EU enterprise IT-services outbound
- Scaled SDR team 1 to 4 with automation-first playbooks (300% productivity gain). Real-time CRM sync via HubSpot + n8n webhooks eliminated 15h/week manual data entry

FalconWise Tech

December 2022 - April 2023 | Remote | Cybersecurity, Dubai

Zero-to-one ABM engine for the MENA cybersecurity market; partnered with Design, Content, and regional cybersecurity vendors.

- Built ABM engine from zero - Apollo + Persana + GPT workflows across 5 data sources, 10+ SQLs/month, 30% engagement rate, 45% improvement in targeting accuracy. Multi-channel campaigns targeting enterprise CISOs, CTOs, and Heads of Security across MENA
- Co-marketing partnership channel with 3 regional cybersecurity vendors - 25% of total pipeline from partner referrals

CareerLabs Tech

June 2022 - December 2022 | Bangalore | EdTech (\$2.2M funding)

Rebuilt outbound motion end-to-end; partnered with Marketing (UTM), Content (messaging), and Product (demo env).

- Rebuilt outbound automation on Reply + HubSpot - SQL conversion 16% to 27% (+69% lift), response time 4h to 2.4h, 50+ remote demos at 65% show-up rate
- \$25K+ in course enrollments; improved onboarding via Product + CS collaboration on new-user journey

TOOLCHAIN

****GTM Platforms:**** Salesforce, HubSpot, Marketo, Outreach, Pipedrive, Attio, ClickUp

****Outbound and Enrichment:**** Clay, Apollo, LinkedIn Sales Navigator, Firecrawl, Smartlead, Instantly, Lemlist, Findymail, Prospeo, BetterContact, ZeroBounce

****Intent and Signals:**** Trigify, PhantomBuster, CommonRoom, Bombora, RB2B, Sumble, Jungler

****AI / LLM / Agentic:**** Claude Code, Anthropic API, OpenAI API, MCPs, Openrouter, Groq, deepline CLI, n8n, Make, Zapier, Python, Apify, Playwright, asyncio

****Multi-Channel:**** HeyReach, LinkedIn, CloudTalk

****Data Infra:**** Supabase, PostgreSQL, Redis, Webhooks, REST APIs, SQL

****Demand Gen and SEO:**** LinkedIn Ads, Meta Ads, Google Ads API, SEMrush, Ahrefs, GA4, GSC, Mixpanel, Looker

****Project Management:**** Trello, Asana, Monday, ClickUp

****Design Collab:**** Figma (asset request automation via n8n)

EDUCATION

BCA, Computer Science | Sabarmati University, Ahmedabad | 2020
