Workflow & Copy Library

Signal-to-Pipeline Engine

GTM PROFILE · RASUL SHAIKH · 2026

6-PHASE WORKFLOW

1. Signal Capture — PhantomBuster, LinkedIn, Crunchbase, Trigify, HeyReach → engagers.csv / signal feed
2. Enrich & Qualify — Apollo, Clay, Prospeo, Firecrawl, Deepline → enriched lead table
3. Score & Route — gtm-ai-lead-scorer, Clay ICP formulas, founder-led-loop/02 → Hot / Warm / Nurture tiers
4. Personalize Copy — MiniMax Text-01, gtm-cold-email-personalizer, Clay formulas → hooks, subject lines, body variants
5. Sequence & Send — gtm-email-cadences, Smartlead, Instantly, HeyReach → live campaigns
6. Mine & Compound — founder-led-loop/04, call notes, reply classifier → content angles → next signal cycle
